GRAND ROBBERY!

\$275,000 Taken from
an Express Train.

A HAND TO HAND FIGHT
By a Sheriff's Posse and the
Robbers.

McKINLEY SPEAKS TRUE WORDS.

Senator Mitchell Speaks for Free
Silver.

Train Held Up.

KENDALLVILLE, Ind., Sept. 12.—
The Lake Shore & Michigan South-
ern passenger train, No. 14, was held up
by a gang of robbers this morning, at
Keeler siding, five miles west of here.
The west switch was thrown, showing
a red light, and when Engineer Knapp
stopped his engine, he was fired upon
and hit in the shoulder by a bullet from
a Winchester rifle. The robbers then
covered the train crew with rifles, and
after blowing open the door of the ex-
press car, three of them entered, and
covering the express messengers, pro-
ceeded coolly to blow open the safe.
It took five cartridges to accomplish
this. The robbers, after taking what
they wanted, departed. The train was
held about an hour. Engineer Knapp
will recover. The amount taken from
the safe is not known.

Engineer Knapp brought his train
here but was unable to go farther on
account of his wound. It is believed
he will recover. There were two safes
in the express car, one for through mat-
ter, to which the messenger had no
key, and one for local matter. The
robbers compelled the messenger to
open all the safes, from which several
thousand dollars in currency were
taken, then blew open the big safe with
dynamite.

In the outer department there was a
quarter of a million dollars in gold,
with which the robbers loaded them-
selves, not stopping to open the inner
compartment, in which there was a lot
more money. In their haste to get
away the robbers also overlooked two
gold bags.

The train is the heaviest for express
on the road, and frequently carries half
a million dollars. It is believed this
fact was known to the robbers.

When they left the train they went
in a southerly direction.

The point at which the robbery oc-
curred, is in a deep cut in the woods,
but all the country around is thickly
populated, with little timber, and it is
believed to be impossible for the robbers
to escape. Poses are out scouring the
country in search of them.

General Superintendent Crosby of
the United States express company de-
clared the total loss to be less than
twenty thousand dollars. He says the
robbers thought they were carrying
away bank notes, but secured mostly
paper, worthless to them, and that
they overlooked \$15,000 worth of gold
bullion. He emphatically denied the
report that \$275,000 was taken. He
says only five or six men are concerned
in the robbery.

President Newell, of the Lake Shore
this afternoon offered a reward of a
thousand dollars for the capture and
conviction of the robbers.

AN ARREST MADE.

PERU, Ind., Sept. 12.—A man giving
his name as C. A. Beiden, of Pocatello,
Idaho, supposed to be one of the rob-
bers of the Lake Shore train near Ken-
dallville, has been arrested here. He
came in over the Wabash road on a
freight train.

CHICAGO, Sept. 12.—A dispatch from
Albion says: The robbers who held up
the Lake Shore train are surrounded by

a sheriff's posse, and a fight is in pro-
gress, with indications that the robbers
will be captured or exterminated.

McKinley's Sound Sentiments.
AKRON, Ohio, Sept. 12.—Governor
McKinley opened the Republican cam-
paign here today with a big meeting.
Speaking on silver McKinley said:
A great majority of the Republicans in
the senate would vote for repeal; if re-
peal was not carried the Democrats
would have to bear the blame. "We
do not want to strike down either gold
or silver," he said. "We want to use
both metals, but insist that one shall
go at parity with the other, and both be
equal in intrinsic value."

He declared that the trouble was not
a lack of money, but taking money out
of circulation through distrust. Con-
fidence would come back, and the trou-
ble end if the declared policy to intro-
duce revenue tariff policy in the country
were abandoned.

Iowa Campaign.

SIGOURNEY, Iowa, Sept. 12.—The
Republican campaign opened here this
afternoon, Hon. Frank D. Jackson, Re-
publican candidate for governor, being
the leading speaker. He devoted most
of his time to the financial situation, de-
claring it the legitimate result of the
Democrats, partially in the matter of
the tariff.

In Congress.

WASHINGTON, D. C., Sept. 12.—The
house committee on election, the pre-
sident, vice president and members of
congress, ordered a favorable report on
the bill repealing the federal election
law. Democrats expect to give exclu-
sive attention in the house after Thurs-
day. A bitter partisan fight expected.

Senate—Stewart's resolution for the
committee to ascertain as to whether
any senator was financially interested
in the national banks went over till to-
morrow.

The repeal bill was taken up. Mitch-
ell, of Oregon addressed the senate
against the bill.

Mitchell favored free coinage of silver,
and while he would be willing as a last
resort to change the ratio in order to
secure free coinage, he believed it
should be decreased to 15 to 1.

Naomi is Her Name.

WASHINGTON, Sept. 12.—Reported
that Mrs. Cleveland has decided to
name the new baby Naomi.

Bust the Trust.

NEW YORK, Sept. 12.—The grand
jury began the investigation of the
corkage trust today.

Burned to Cinders.

SANTA CRUZ, Sept. 12.—Thomas Kil-
foyle, well known in this county was
burned to death some time Saturday
night. The only theory advanced as to
the cause is that he must have fallen
asleep while reading in bed, and in
some way knocked the lamp from the
table. The body was in an awful con-
dition, his head arms and legs having
been entirely burned and only a small
portion of the trunk remained and that
had been burned to a cinder.

Continual Earthquake.

LOS LUNAS, N. M., Sept. 12.—Central
New Mexico has been subject al-
most daily, for more than three months,
to violent earthquakes. Five commo-
tions Thursday threw down scores of
old adobe buildings, already shaky
from previous earthquakes. No lives
were lost, but a peculiar feature is the
numerous cases of nervous sickness,
even convulsions, among the inhabi-
tants as soon as the rumbling com-
mences. The center of disturbances is
Bernal, where a spring appeared at a
place where it has always been dry and
barren.

THE MARKETS.

SAN FRANCISCO, Sept. 12.—Wheat,
December \$1.23.
CHICAGO, Sept. 12.—Cash, 69; De-
cember 73.

PORTLAND, Sept. 12.—Wheat valley,
\$2.45; 65; Walla Walla \$2.45; 65.

CHEROKEE STRIP OPENING.

Thousands Pressing for a Free
Home.

CHINESE EXCLUSION SLOW.

The English Codling Strikes are
Still On.

The Rush at Cherokee.

ARKANSAS CITY, Kan., Sept. 12.—
The ranks of the homeseekers before
the registration booths, continued to
increase during the night.

An excursion in three sections over
the Santa Fe road contained five thou-
sand.

It is becoming a serious question as
to how so many can be cared for. Many
in the line are suffering from exposure
to the sun and dust, and lack proper
food. One old soldier dropped dead.

Cherokee Strip Opening.

ARKANSAS CITY, Kan., Sept. 12.—
Nine clerks from Washington began
yesterday registering 20,000 homeseek-
ers, who are in this vicinity. The re-
cord today was 1,889. At this rate it
will be impossible for all to register be-
fore Saturday, when the strip will be
opened, unless the force of clerks shall
be increased. Owing to the dust that
fills the air and the lack of water those
in the line experience much discomfort
and suffering. Water sells at 10 cents
a cupful and 25 cents a canteen.

WASHINGTON, Sept. 12.—Secretary
Smith has issued an order that no rail-
road train be permitted to enter the
Cherokee strip for six hours before the
opening next Saturday. For three
hours after the opening trains will be
allowed to enter under regulations, the
chief of which are that they shall be
for general use, and not, chartered to
favored passengers, shall stop every
five miles and not run faster than fif-
teen miles an hour.

Chinese Exclusion Laws.

PORTLAND, Or., Sept. 12.—A commit-
tee from the Federated trades waited on
Judge Bellinger this afternoon, for the
purpose of obtaining warrants for the
arrest and deportation of several Chi-
nese.

WASHINGTON, Sept. 12.—The new
Chinese minister to this country, Jang
Yu, has been at the state department
and it is understood was informed
by Secretary Gresham of the in-
tention of the administration to sus-
pend the further action under the ex-
clusion act, pending action of congress
on the bill introduced by Representa-
tive Everett advancing to September 1,
1894, the date to which Chinese may
register.

The change in the attitude of the
treasury department, which last week
was contemplating instructions for the
enforcement of the Geary law, is, it is
believed, due to strong protests of the
Chinese government, coupled with an
intimation that in event of such action
that the government would no longer
assume responsibility for the future
safety of Americans in Chinese terri-
tory.

The Coal Strikers.

LONDON, Sept. 12.—Ten thousand
miners resumed work in the North
Stafford district yesterday at the old
rate of wages.

LONDON, Sept. 12.—A dispatch from
Nottingham announced that six of the
principal lace and hosiery factories at
that place had been closed on account
of lack of coal. Thousands of people
are thus thrown out of work.

There is still much excitement in
South Yorkshire. Thousands of miners
are surrounding the colliery yards and
reinforcements of troops and police
are held in readiness.

The great Northern road has laid off
fifty more trains, greatly inconvenienc-
ing the travelling public.

BRUSSELS, Sept. 12.—Miners in the
Borinage district of Hainault have
voted to go on a strike immediately
unless wages are raised. Vast num-
bers of people are involved.

ABSOLUTELY PURE

STREET IMPROVEMENT CASES

Decided in the Supreme Court of
Oregon.

IN FAVOR OF THE CITY OF SALEM

And Oregon City Street Improve-
ments Last Year.

J. Q. Wilson, et al resp. vs. the City
of Salem, app. judgment of court below
reversed and the cause removed for
further proceedings not inconsistent
with this opinion, opinion by Bean J.
Bingham & D'Arcy and J. J. Shaw for
city, and Boise & Ford for property
owners on Chemeketa street.

An entry similar to the above was
made in a like case from Oregon City.
The decision is very clear and strong
and relies upon authorities that extend
to the highest court and are based upon
legal opinions and principles that were
perfectly familiar and well established
since years.

THE OPINION.

This was a suit to restrain the execu-
tion of a warrant for sale of plaintiff's
property for a delinquent street assess-
ment, commenced after the work had
been completed and accepted by the
city, and the property advertised for
sale.

The opinion then sets out the pro-
ceedings in the city council and courts
below. It holds that the city violated
no express provision of its charter, and
that a court of equity will not, after
the work is completed, restrain the en-
forcement of an assessment on account
of irregularities in the proceedings.
The court cites the provisions of the
charter and shows decisions holding
that the wisdom and expediency of an
improvement, the character and cost of
the work are all matters of legislative
control and vested by charter, in the
discretion of the council and upon
which the property owners have no
constitutional or charter right to be
heard.

In conclusion, the court holds that
the property owners having suffered the
work to proceed to final comple-
tion and acceptance, without protest or
objection, and received the benefit of
the improvement, they could not con-
test the validity of the proceedings.

Caucasians vs. Indians.

TACOMA, Sept. 12.—It has been re-
ported that the British Columbia In-
dians are being imported to pick hops
in this state in alleged violation of the
alien contract labor law. Immigration
Inspector Snyder who has been investi-
gating the matter, reports tonight
finding that wherever British Colum-
bian Indians have been employed grow-
ers are discharging them in favor of
white people. No arrests have been
made while awaiting instructions from
the department of justice.

DELICATE WOMEN

Or Debilitated Women Should Use

Bradfield's Female Regulator

Every ingredient possesses superb tonic
properties and exerts a wonderful influence
in building up and strengthening her system
by driving through the proper channels all
impurities. Health and strength guaranteed
to result from its use.

My wife, who was bedridden for eighteen
months, after using BRADFIELD'S FEMALE
REGULATOR for two months, is getting well.

SCENES AT THE STATE FAIR

Activity in Every Department
and Good Outlook.

HARD TIMES AND HARD WEATHER

Dampen the Outlook for Oregon
Exhibition.

There is a manifestation of consider-
able activity on every hand as one en-
ters the state fair grounds. Restau-
rants, melon stands, machinery exhibit,
merry-go-rounds, and sideshows make a
clatter, while hammer and saw add
their cheerful tenor to the buzz and
chorus. All day Monday and this fore-
noon the entry clerks were rushed with
applicants and the way exhibits were
pouring in even when the rain was
pouring down gave signs of a possibly
reasonable success.

THE FRUIT PALACE

In charge of Secretary Marsh, of the
committee was rising in horticultural
grandeur between showers. A force of
men will complete the work today and
the fruit show will be quite ample.
There were several wagon loads of ap-
ples spread on the roof. Prunes, pears
and plums were piled up on the ground
and teams were out in the country after
apples and other fruit. The cool season
has kept fruit, especially apples, from
attaining their customary brilliant
colors. The showers since Thursday
night have kept contributors of much
fine fruit from coming in.

FARM MACHINERY.

Gray Bros. had off with a display of
vehicles and agricultural implements.
There are wind mills, driers, and good
display of articles that are calculated to
make farming a kind of pleasurable
and not too fatiguing excitement.

THE POULTRY SHOW
is filling slowly. There is a fair collec-
tion of pigeons and fowls, and Mr. Gar-
rison, of Forest Grove who is a show all
by himself promises Supt. Goodhue to be
here with a hundred birds.

IN THE PAVILION

are good displays of needle work, em-
broidery, patchwork, etc. The collec-
tion of oil paintings contains some new
pieces and is a large and creditable dis-
play. In grain Lane county leads off
with 230 samples in charge of Hon.
A. Wilkins. M. Wilkins shows 100
varieties of tame and native grasses, 250
specimens. The State Agricultural
